PROTECTIVE COATINGS

# DULUX<sup>®</sup> SURFACESHIELD<sup>™</sup> FP

The Waterborne Two-Pack Fluoropolymer

# DULUX® SURFACESHIELD™ FP

SURFACESHIELD™ FP (Fluorinated Polymer) is a premium, two-pack, non-sacrificial, water-borne anti-graffiti clear coat. The coating applies opaque on application and dries clear to ensure all sections of the surface are covered. Graffiti on surfaces treated with SURFACESHIELD™ FP can be removed repeatedly (once the SURFACESHIELD™ FP is fully cured) using a combination of graffiti removal agents and water. This low odour product has a VOC of only 25 grams per litre.

## USES

SURFACESHIELD™ FP can protect a wide variety of porous materials used in construction, infrastructure, retail, municipality, and public spaces. SURFACESHIELD™ FP can also be used directly over Dulux® decorative topcoats such as Weathershield® and Acrashield®.

## FEATURES

- Can be used safely over painted surfaces such as Weathershield® and Acrashield®
- Water based/ low VOC, suitable for confined spaces
- Overcoatable with light abrasion
- Excellent gloss retention
- Short recoat time with wet on wet application
- Available in gloss and satin finishes

## BENEFITS

- Convenient water wash up
- Long term durability
- Keeps assets free of graffiti

## PERFORMANCE GUIDE

Weatherability	Excellent gloss and colour retention
Heat Resistance	Up to 120°C dry heat
Water Resistance	Excellent resistance to fresh and salt water. Not suitable for immersion.
Abrasion Resistance	Good
Solvent Resistance	Resists most solvents
Acid Resistance	Very good
Alkali Resistance	Good
Salt Resistance	Excellent
VOC	25 g/litre

## APPLICATION

Brush and roller
