# Luxathane<sup>®</sup>

---

A range of classic polyurethane topcoats that provide colour and durable protection for steel in a wide range of environments.

**Protection you can count on.**

The Luxathane® range of polyurethane topcoats has been widely used in many environments across Australia and New Zealand. Now also available in a contemporary matt finish.

**Appearance:**

- 4 distinct sheen levels – high gloss (HPX), gloss (DTM), satin (SPX), and matt (MPX)
- Available in over 5000 colours

**Performance**

- Good colour and gloss retention
- Provides corrosion protection against abrasion and chemical splashes
- Recoatable

**Special features**

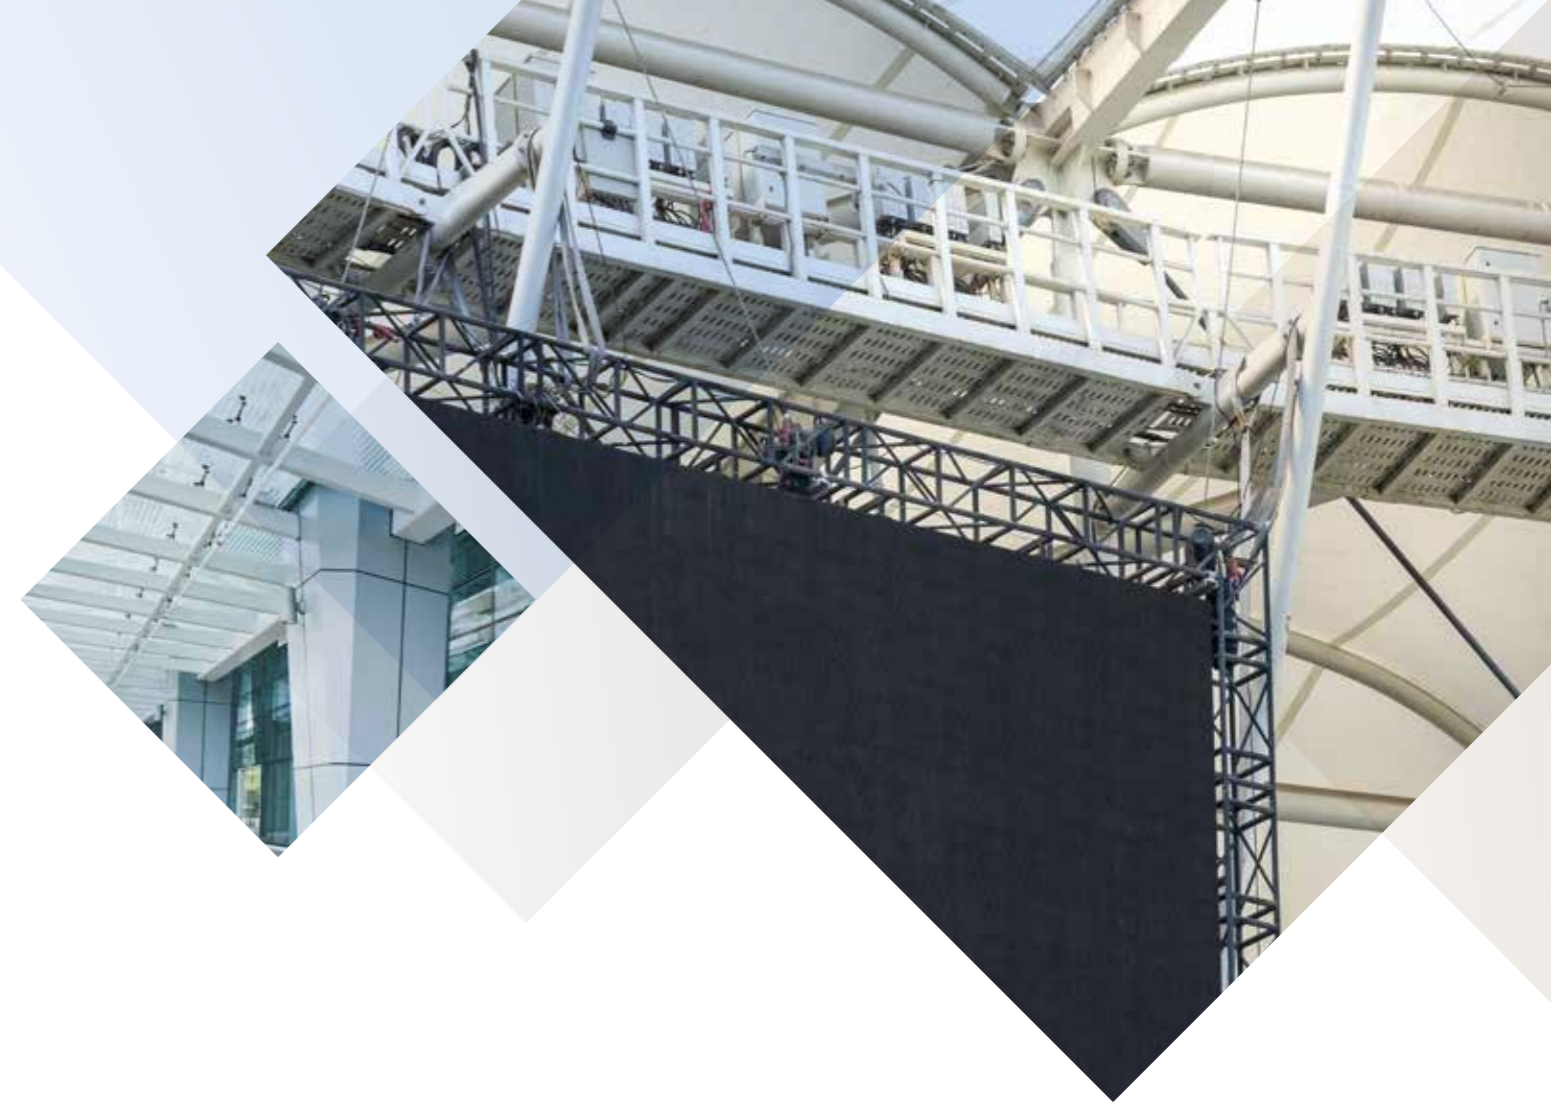

- Direct to metal (DTM) option
- Accelerator can be added to reduce dry time

**Suitable on various primed substrates**

- Steel
- Aluminium
- Concrete

**Ideal for new construction and maintenance**

- Retail complexes
- High rise offices
- Apartments
- Exterior exposed metal

**Luxathane® HPX**

Smooth, high gloss finish polyurethane with good UV resistance and gloss retention.

Gloss level – high gloss

**Luxathane® DTM**

Direct to metal, gloss finish polyurethane that contains rust inhibitive zinc phosphate for added corrosion protection.

Gloss level – gloss

**Luxathane® SPX**

Durable, satin finish polyurethane.

Gloss level – satin

**Luxathane® MPX**

Attractive, matt finish polyurethane that is suitable for both internal and external use.

Gloss level – matt
