

Product Range Brochure

# Flexituff®

A range of elastomeric lining with excellent flexibility and rapid cure.

Gippsland Water Treatment  
Flexituff PU-1

Glenorchy Concrete Reservoir  
Flexituff PU-1

Flexituff® is a range of elastomeric liners and membranes for waterproofing assets, when flexibility, seamless finish, and rapid curing are required.

Pure polyurea and hybrid polyurethane options are available for various applications.

**Performance\***

- Superior flexibility
  - Rapid cure time
  - Excellent impact resistance
- \*when compared to other conventional coatings.

**Applications and Industrie**

- Mining: tank lining, conveyors, hoppers, bulk train wagon liners etc
- Oil & gas: inner and outer pipeline, flooring, storage tank etc
- Water and wastewater: primary and secondary containment etc

Contact Dulux Protective Coatings for individualised specification.

Flexituff ®

Training

Distribution

**Elastomeric Liner**

- 100% solids, very low VOC, low odour
- Corrosion protection for steel and concrete
- bridging cracks in concrete

**Expert Advice**

Dulux Protective Coatings has experienced elastomeric specialists with extensive project and application experience.

- Application training and on-site assistance
- Specification advise
- Asset protection

**Vast distribution outlet**

Over 250 stores and warehouses within Australia and New Zealand.

Product Properties	Flexituff® PU-1	Flexituff® DM-8	Flexituff® PU-2
Technology	Pure Polyurea	Pure Polyurea	Hybrid Polyurethane
Flexibility	● ● ●	● ●	●
Elongation	● ● ●	● ●	●
Hardness	●	● ● ●	● ● ●
Abrasion Resistance	● ● ●	● ●	● ●
Geotextile	-	x	✓
Direct to Metal	x	✓	x
Mix Ratio	1:1	1:1	2:1
Immersion	Yes: refer to product data sheet		
Colour Stability	Not colour stable: The use of aromatic isocyanate as a curing agent for elastomeric means that the product will discolour rapidly when exposed to UV light.
